

Science and Technology Наука и технология

Throughout the 20th century, Russia has been a leader in scientific and technological innovation. In aerospace and other engineering fields, Russia remains a powerhouse.

Business Бизнес

Russia is highly educated and possesses vast natural resources and an expanding consumer class. Russian remains the lingua franca of a huge swath of Eurasia. Recent government initiatives like the Skolkovo (Russian Silicon Valley) Project have aggressively courted innovation businesses. Want to work in Poland or the Czech Republic after graduation? It's easy to pick up other Slavic languages after learning Russian.

Security

After the breakup of the Soviet Union, Russia and the former Soviet states remain central to concerns of global security and nuclear non-proliferation. Russian remains on all government agencies' lists of CRITICAL NEED languages.

Russia is home to one of the world's richest **poetic traditions** -- Pushkin, Lermontov, Tiutchev, Blok, Akhmatova, Mandelstam, Tsvetaeva, Pasternak, Mayakovsky, Khlebnikov, Brodsky and others, whose works can only be truly appreciated in Russian.

Did we mention hockey... figure skating... tennis... Sochi 2014?

THEY'RE EVERYWHERE!

You won't have to look far to find Russians and Russian speakers among the students and professors of Georgia Tech.

In addition, Atlanta has a large and active Russian community with many cultural events -- films, concerts, exhibitions, lectures, stand-up comedy and just about anything else. Georgia Tech has hosted its own concerts and film festival.

THOUGHT ABOUT RUSSIAN?

Русский язык

The Russian program in the School of Modern Languages at Georgia Tech offers a Minor and Certificate in Russian Studies, intensive summer immersion programs (LBAT and "Spring Track") in Moscow, and the opportunity to complete the International Plan in Russia through academic study abroad at either the Academy of the National Economy or Bauman Moscow State Technical University, as well as through internships. A full program of language study is offered on campus, as well as courses in literature, film and culture in translation, and a team-taught course on contemporary politics, economics and culture.
